

UNDERBANK UNITARIAN CHAPEL, STANNINGTON.

This survey was done during the month of April 1980 & the burial ground is still being used. Because the Chapel was established in 1652 the area contains some of the oldest M.I.s in the Sheffield area.

The full inscription has been recorded from all the stones, so obviating the need for researchers to visit except for sentimental reasons, or because of future inscriptions being added. Where there may be doubt about the accuracy of transcription because of dual information or peculiar spellings, these have been underlined.

The following abbreviations have been adopted:-

I M O - In memory of. I L M O - In loving memory of. I E L M O - In ever loving memory of. I L & A M (R) O - In loving & affectionate memory (remembrance) of. I I R O - In loving remembrance of.
